

State Issued Resale Certificates (Updated 09/30/2020)

Enter the Earth is based in North Carolina. Our state accepts out-of-state resale certificates for wholesale purchases.

Your resale certificate may be a specific document issued by your home state government or a form that you fill out instead. Or both.

Many states have recently switched over to a form.

States that do not collect sales tax will have equivalent documentation like a business license.

Please visit your home state's department of taxation website for more information.
